

State Route 25 Corridor Improvement Project

Update on High-Level Alternative Screening

March 19, 2026

Why are we here?

- ▶ Recap -High-Level Alternative Screening
 - ▶ Objective and systematic assessment using existing data, standards and guidelines to identify a reasonable range of alternatives.
 - ▶ Considers each alternative's ability to meet the project's purpose and need.
- ▶ Update on high-level screening of alternatives
- ▶ Intent
 - ▶ Establish alternatives that will receive further analysis in development of Environmental Document
 - ▶ Identify feasible and viable alternatives to move forward

Where are we at in the Process?

- ▶ Equal assessment of all alternatives
 - ▶ Adopted Route
 - ▶ Existing Alignment
 - ▶ Transit only
- ▶ Screening characteristics
 - ▶ Regular weekly focus meetings
 - ▶ Data, information and public input compilation
 - ▶ Communication between functional units, SBCOG staff and consultants
 - ▶ Evaluation across all criteria
 - ▶ Strengthen the project's long-term viability

What is Considered?

- ▶ **Capacity:**

- ▶ Congestion relief, delay, throughput, level of service, reliability, etc.

- ▶ **Safety:**

- ▶ Safety countermeasures, access management, conflict point reduction, etc.

- ▶ **Right of Way:**

- ▶ Property impacts/farmland, utility relocation, capital costs, etc.

- ▶ **Construction:**

- ▶ Capital costs, life-cycle maintenance, operational [including transit], etc.

- ▶ **Long-range Planning:**

- ▶ Alignment with established corridor vision and statewide policies, grant funding competitiveness

When can you expect?

- ▶ Continued screening of alternatives
- ▶ April SBCOG Board meeting - action/concurrence regarding Alternatives 8 and 9
- ▶ May SBCOG Board meeting – action/concurrence regarding remaining alternatives

Thank You
